5 POSITIVE REASONS TO INVEST IN HEALTH AND SAFETY (PART 1)

With the new guidelines positing even heavier fines for **health and safety** breaches businesses should invest in health and safety more than ever before, experts urge. But lets look at this issue not only from the perspective of businessmen but also from the perspective of human beings. Why should you invest in health and safety? We, at **Safety2Business**, firmly believe that the very reason is that it is your responsibility to ensure that employees finish the working day in the same state of health as when they arrived. This rule comes into force the moment you hire someone and he/she signs a contract with you. Recent tragic events of fatal accidents just come to highlight the importance of implementing business risk management techniques to minimise any harm. Below is a list of the other 4 positive reasons to set a budget aside for the health and safety side of your business:

- *protect your hard won brand reputation*
- *comply with the health and safety legislation (this being not optional)*
- *avoid issues with insurers and the claims settlement process*
- *minimise costs to your business related to staff being sick and therefore off*
